

Setting Up Email in Outlook for iOS

Step 1: Install Outlook

- Download **Microsoft Outlook** from the App Store if you haven't already.
- Open the app.

Step 2: Add a New Account

- Tap your profile icon in the top left corner.
- Tap **Settings (gear icon)** at the bottom.
- Tap **Accounts**
- Tap **Add Account** → **Tap Email Account**.

Step 3: Enter Your Email Address

- Type: email@ctifiber.com
- Tap **Add Account**.

Step 4: Choose IMAP Setup Manually

- If Outlook tries to auto-configure, tap **Set Up Account Manually**.
- Choose **IMAP**.

Step 5: Enter Incoming Mail Settings

- **IMAP Hostname:** mail.ctitech.com
- **Port:** 993
- **Encryption:** SSL/TLS
- **Username:** email@ctifiber.com
- **Password:** Your email password

Step 6: Enter Outgoing Mail Settings

- **SMTP Hostname:** mail.ctitech.com
- **Port:** 587

- **Encryption:** STARTTLS/SSL
- **Username:** email@ctifiber.com
- **Password:** Same email password

Step 7: Save and Finish

- Tap **Sign In** or **Done**.
 - Outlook will verify the settings and log you in.
-
